- to test or reverse-engineer the Service in order to find limitations, vulnerabilities or evade filtering capabilities;

Your failure to comply with the AUP may result in suspension or termination, or both, of the Service(s) pursuant to the Agreement.

[1] Unsolicited Bulk Email (UBE), commonly referred to as email SPAM, is defined as Internet mail ("email") that is sent to a group of recipients who have not requested it. A mail recipient may have at one time asked a sender for bulk email, but then later asked that sender not to send any more email; hence any bulk email sent after that request was received, is also UBE. Another term used to describe this form of email is Unsolicited Commercial Email (UCE); this may be defined as an electronic promotional message sent to a consumer without the consumer's prior request or consent.
